

### **Previous areas of interest used for LME dissertations.**

**Here is a list of just some of the areas looked at previously. As discussed in class it can be anything nursing related that you are interested in. The key is that you need to choose something you are interested in. As you can see from the below there is a wide variety and this list is not exhaustive. If you have an idea and you are not sure contact your supervisor for a one to one, you may have 4 one to ones so use them wisely.**

- Falls prevention in acute environments
